

LOTUS CARS BAHRAIN PRESENTS THE ALL-NEW 2025 EMEYA: THE ULTIMATE ELECTRIC HYPER-GT FROM LOTUS

- Lotus Cars Bahrain launches all-new Emeya, the first all-electric grand tourer (GT) from Lotus, designed for drivers in the Kingdom of Bahrain.
- The Emeya combines the brand's rich history with sports car-level performance and the latest technologies, setting a new benchmark in its segment
- It is one of the fastest electric GTs in the world, with an acceleration of 0-62 mph (0-100km/h) in under 2.8 seconds.¹
- The car is capable of charging from 10 to 80 per cent in 14 minutes, using a 400-kW (600A capable) DC fast charger, making it one of the fastest-charging electric vehicles available today.²
- Powerful, efficient and refined all-electric power train delivers the perfect balance of performance, responsiveness and range - with a maximum WLTP range of 610 km (379 miles).³
- The order book for the new Emeya is now open, with prices starting from BHD 46,000 including VAT and first deliveries scheduled in Q1 2025.

[17 November 2024, Manama, Bahrain], Adamas Motor Group, the official dealer of Lotus Cars in the Kingdom of Bahrain, has officially introduced the 2025 Lotus Emeya hyper-GT during a private VIP track event held at the iconic Bahrain International Circuit.

The new Emeya follows in the footsteps of the Eletre and joins the range as a next-generation all-electric lifestyle vehicle to support Lotus' vision of becoming an all-electric global luxury brand. This revolutionary four-door vehicle seamlessly blends the excellent dynamic performance that Lotus is renowned for, with world-class refinement, comfort, usability and connectivity – bringing drivers the ultimate grand tourer package.

Emeya is competitively priced in the luxury GT segment. It is available in Emeya, Emeya S, and Emeya R trim levels, with prices starting from BHD 46,000 and with the first local deliveries scheduled in Q1 2025. The Lotus Emeya retains the core Lotus sports car DNA while redefining the hyper-GT segment with a fusion of cutting-edge technology, exhilarating performance, and sophisticated design.

Combining classic Lotus aesthetics with modern luxury, the Emeya is available in six striking colours and features bold wheel arches and aerodynamic elements that honour Lotus's racing heritage. Its opulent interior is crafted with sustainable materials, including real metal touch points for added sophistication. A 55-inch head-up display ensures vital information remains in the driver's line of sight, while KEF's Uni-Q™ speakers and Dolby Atmos surround sound offer an immersive audio experience.

Delivering an unparalleled driving experience, the Emeya offers up to 905 bhp, accelerating from 0-100 km/h (0-62 mph) in under 2.8 seconds and 0-200 km/h (0-124 mph) in just 9 seconds. Advanced active aerodynamics, including a pioneering front grille, rear diffuser, and rear spoiler, contribute to a class-leading drag coefficient and generate over 150kg of downforce.

Equipped with a high-performance twin-layer battery and enhanced cooling, the Emeya boasts a range of up to 610 km (379 miles) and ultra-fast charging capabilities. The car can charge from 10 to 80 per cent in just 14 minutes using a 400-kW DC fast charger, which supports up to 600 amps, making it one of the fastest-charging EVs available today. This advanced technology allows the Emeya to gain up to 310 km of range in just 10 minutes, providing drivers with unparalleled convenience and reducing time spent at charging stations. The new Emery also features the latest in-car technology and safety systems, including a 15.1-inch HD OLED Lotus Hyper OS infotainment system powered by Unreal Engine, delivering a responsive, interactive 3D display and highest quality visuals.

Karl Hamer, Chairman and CEO of Adamas Motor Group, commented: *“We are tremendously excited to introduce the all-new Lotus Emeya Electric Hyper-GT to our valued customers and partners in the Kingdom of Bahrain. And there’s no better way to mark this debut than by showcasing this revolutionary lifestyle vehicle against the iconic backdrop of the Bahrain International Circuit. We are confident that this ground-breaking new model will resonate strongly in Bahrain and we look forward to beginning our first deliveries early next year.”*

Ramzi Atat, Head of Marketing and PR for Lotus Cars Asia Pacific, Middle East & Africa commented: *“Bahrain is an important market for Lotus in the GCC region, offering promising growth potential in the EV segment. With strong Motorsports foundations rooted around the Bahrain International Circuit, we are confident that our Lotus lineup, including our all-new Lotus Emeya, will continue to deliver exhilarating driving experiences tailored For The Drivers”.*

The new Lotus Emeya is available for test drives with order book open via Lotus Cars Bahrain, operated by Adamas Motor Group. For further information on the Lotus Emeya in Bahrain, please visit: <https://www.lotuscars.com/en-BH>.

ENDS

¹ Emeya R, other models will vary

² In optimal conditions. Charging time may vary depending on a number of factors including charging station power output, battery health and temperature, and more. This data was validated by P3, who published their 2023 P3 Charging Index Report – Asia on 27th May 2024, which included a comparison of fast-charging capabilities of various battery electric vehicles including Emeya. The results can be found on page 9-10, and the full report itself can be downloaded here: <https://www.p3-group.com/en/p3-updates/p3-charging-index-asia/>

³ Vehicle range may vary depending on factors including vehicle specification, prevailing weather conditions, and driving style.
